

If you are looking for an outstanding builder, we highly recommend Clearwater Homes Ltd.

We are so pleased with our new house and have never loved a home as much as this one!

From our first meeting with Troy, with Clearwater Homes Ltd, we were so impressed by his knowledge and passion for building homes. We knew right from the beginning we had selected the right builder.

Any questions we had about our future home were answered openly and honestly in a timely manner. Troy provided us with multiple options for the features of our home, and because of this we were able to make informed decisions in respect to cost vs quality. Troy was very helpful in assisting us in prioritizing our selections while being cost conscious at the same time.

Troy is very personal, kind and is a pleasure to converse with. He has great connections with subtrades in the industry, who enjoy working for him and Clearwater Homes Ltd.

During our site visits we noted a positive and organized work environment between all contractors.

Because of Troy's expertise our home came in on time and on budget.

Troy has integrity and is very diligent. Even post construction he is always willing to answer any questions we have.

If you are considering building or renovating your home, we highly recommend Clearwater Homes Ltd. You will not regret it!
